Development

STATE OF HAWAII
DEPARTMENT OF HUMAN RESOURCES DEVELOPMENT
ORGANIZATION CHART

DEPARTMENT OF HUMAN RESOURCES DEVELOPMENT

Department Summary

Mission Statement

To provide timely and responsive leadership, resources, and services to fully support the State in the recruitment, management, and retention of a high-performing workforce.

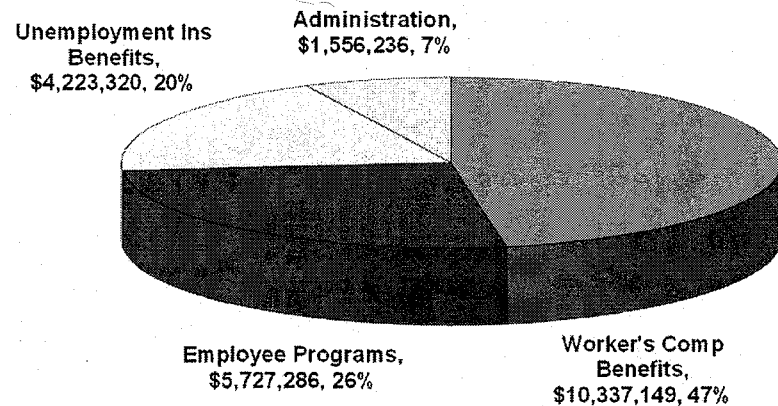

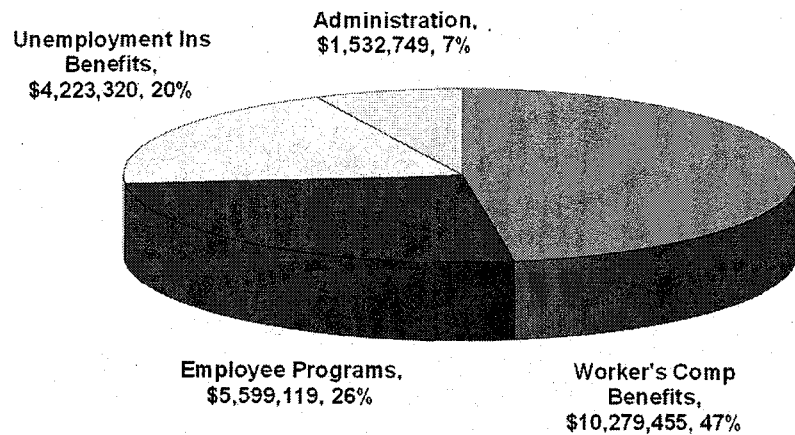

Department Goals

To maximize employee productivity and performance toward excellence in HRD; increase the effectiveness and efficiency of the State's Human Resources system to maximize productivity and performance toward excellence; and promote proactive State Workforce Planning.

Significant Measures of Effectiveness

	<u>FY 2016</u>	<u>FY 2017</u>
1. % of certificates issued within 5 calendar days where list of eligible's exist	75	75
2. % of certificates issued within 95 calendar days where list of eligible's does not exist	30	30
3. % contract grievances settled without third party assistance	90	90

FB 2015-2017 Operating Budget by Major Program Area

DEPARTMENT OF HUMAN RESOURCES DEVELOPMENT MAJOR FUNCTIONS

- Administers the State human resources program, provides administrative support services to statutorily and executively assigned commissions and boards, and represents the State on other commissions and committees.
- Plans, organizes, directs and coordinates the various activities of the State human resources program in personnel development and training, recruitment, examination, position classification, pay administration, workers' compensation payments, and labor relations within the scope of laws, rules and established policies.
- Develops and administers classification and compensation system(s) for civil service positions including the establishment and maintenance of classes and their experience and training requirements; the pricing of classes; and the assignment of positions to classes, bargaining units and other administrative units.
- Establishes and maintains statewide policies, procedures, programs, and services that provide guidance and support to the line departments of the Executive Branch with regard to employee relations, employee benefits programs; reports on the workforce composition and employment trends; and statewide employee development programs.
- Plans and administers statewide (except for DOE and UH) workers' compensation program, claims management, Return to Work Priority Program, and a safety and accident prevention program.
- Conducts statewide staffing and consultative advisory services, including human resources research and development projects to forecast, plan for and effectuate effective staffing strategies before staffing issues become acute or impact public services; implements strategies to attract and retain employees by competitively filling positions, and develops and administers a statewide recruitment program.

MAJOR PROGRAM AREAS

The Department of Human Resources Development has a program in the following major program area:

Government-Wide Support

HRD 102 Work Force Attraction, Selection, Classification, and Effectiveness

HRD191

A. Statement of Program Objective(s)

To support program objectives through recruitment and retention of a qualified workforce within applicable fiscal and operational constraints. This includes recruitment activities for civil service positions; providing support for personnel actions that are necessary as a result of the State's fiscal status; classifying positions based on the duties and responsibilities; identifying and coordinating employee training and development opportunities; compensating employees at proper pay levels; assuring effective employee-employer relations; administering a variety of voluntary employee benefits; administering the State's self-insured workers' compensation program for State employees; and ensuring a safe and healthy work environment.

B. Description of Request and Compliance with Section 37-68 (1) (A) (B)

No new programs are planned.

C. Description of Activities Performed

The Department administers the State Executive Branch personnel system. Major activities carried out by the program are as follows:

- Develop and administer a civil service recruitment and examination system consistent with the application of the Merit Principle which include: (1) competitive civil service recruitment planning and execution; (2) competitive examination development and administration; and (3) jurisdictional placement searches for employees affected by reduction in force, and work-related and non-work related disabilities.
- Develop and maintain the existing classification system, and develop and implement alternative methods of classifying positions, including developing new and amended class specifications, classifying positions, determining the bargaining unit for classified positions, and establishing policies and procedures.

- Maintain equitable pay relationships by determining the pricing and repricing of classes; and administer a systematic pay program including establishing special rates for shortage occupations.
- Develop and maintain existing compensation programs and develop and implement new compensation programs that facilitate recruitment and retention of quality employees.
- Approve and manage position exemptions from civil service.
- Plan and administer the State's self-insured and centralized workers' compensation program for State employees who sustain injuries and illnesses in the course and scope of their employment, including providing claims management services and administering the return to work priority program to try and contain the State's workers' compensation costs.
- Plan and administer a statewide safety and accident prevention program, including developing and implementing strategies for eliminating or mitigating the causes of employee injuries and illnesses.
- Oversee the State's drug and alcohol testing program for covered employees in addition to those subject to federal requirements.
- Develop and administer low-cost/no-cost employee benefits and assistance programs.
- Interpret and administer collective bargaining contracts and rules, including processing employee grievances.
- Advise, participate and provide support for collective bargaining activities.
- Provide advisory services and technical support to departments on labor relations, performance management, employee development, recruitment, training, personnel transactions, workers' compensation, and safety.
- Gather, analyze and disseminate workforce information.
- Maintain the central human resources technology system.

D. Statement of Key Policies Pursued

The Omnibus Civil Service Modernization legislation, enacted by the passage of Act 253, SLH 2000, achieved significant policy changes by requiring each jurisdiction to establish and maintain a separate civil service system based on the Merit Principle. Merit Principle is the selection of persons based on their fitness and ability for public employment and retention of employees based on demonstrated appropriate conduct and productive performance.

In the direction and administration of the State human resources system, the program is guided by key policies identified in Chapters 76, 78, 89 and 89C, Hawaii Revised Statutes. These policies include but are not limited to:

- Equal opportunity for all in compliance with all laws prohibiting discrimination. No person shall be discriminated against in examination, appointment, reinstatement, reemployment, promotion, transfer, demotion, removal, or any other term of employment.
- Impartial selection of the ablest person for government service, in accordance with the Merit Principle, by means of competitive evaluations which are fair, objective and practical.
- Opportunity for competent employees to be promoted within the service.
- Reasonable job security for the competent employee, including the right of appeal from personnel actions.
- Systematic classification of all positions through adequate job evaluation.
- Development and implementation of appropriate and compliant compensation provisions.
- Procedures by which qualified disabled employees may be reasonably accommodated.
- Joint decision making through the collective bargaining process, as applicable.
- Provision of systematic means to help employees maximize their productivity, effectiveness, efficiency and morale in accomplishing organizational goals.

E. Identification of Important Program Relationships

This program has close and direct relationship to the personnel programs of other public employers including the counties, the Judiciary, and the Hawaii Health Systems Corporation, particularly in achieving the intent of Chapters 76, 78, 89 and 89C (as amended by Act 253, SLH 2000). Legislative and other policy guidelines identify important relationships with other State programs (e.g., Occupational Safety and Health, Workers' Compensation, and the Office of Collective Bargaining). Line agencies also create the need for activities, programs and services to support their human resource management needs.

F. Description of Major External Trends Affecting the Program

As the nation and State continue to recover from the fiscal and economic impact of the recession, we anticipate the following human resource-related trends:

- Aging of the workforce and increased number of retirements, resulting in loss of critical institutional knowledge.
- Change in workforce and expectations of employment.
- Focus on technology improvements that will transform State government operations to best manage our resources.
- Collective bargaining negotiations will be challenging and we must continue efforts to maintain good, collaborative working relationships with the employee unions.
- Increasing costs for the workers' compensation program due to an aging workforce, yearly statutory increases in indemnity benefits, and upward adjustments to the Department of Labor and Industrial Relations' Workers' Compensation Supplemental Medical Fee Schedule because of decreasing Medicare reimbursements.

G. Discussion of Cost, Effectiveness, and Program Size Data

The human resources programs at the central agency and department level must facilitate the hiring and retention of quality employees, and the amount of resources available to them will impact their ability to deliver what is needed. The Department continues to face the challenge of how to provide an adequate level of service to the public and State agencies with staffing that has been reduced due to budget constraints.

H. Discussion of Program Revenue

Not applicable.

I. Summary of Analysis Performed

Not applicable.

J. Further Considerations

None.

PROGRAM REVENUES BY FUND (IN THOUSANDS of DOLLARS)								
GENERAL FUNDS	64	27						
TOTAL PROGRAM REVENUES	64	27						

NOTE: PROGRAM REVENUES BY TYPE AND FUND MAY NOT BE ACCURATE DUE TO SYSTEM ERROR.

A. Statement of Program Objective(s)

To enhance program effectiveness and efficiency by formulating policies, directing operations and personnel, and providing other administrative support services.

B. Description of Request and Compliance with Section 37-68 (1) (A) (B)

No new programs are planned.

C. Description of Activities Performed

Major activities carried out by the program to guide, support and direct the Human Resources Management System of the State Executive Branch are as follows:

- Advise the Governor on policies and issues concerning the administration of the State personnel management system.
- Administer the Personnel Management System of the State.
- Direct and coordinate Department of Human Resources Development programs.
- Direct comprehensive planning.
- Conduct program analysis.
- Direct and coordinate budget preparation and execution.
- Perform management services.
- Provide administrative support to Department operations and statutorily assigned commissions and boards.
- Plan and coordinate efforts to address the Department's information technology requirements.

D. Statement of Key Policies Pursued

The Omnibus Civil Service Modernization legislation, enacted by the passage of Act 253, SLH 2000, achieved significant policy changes by requiring each jurisdiction to establish and maintain a separate civil service system based on the Merit Principle. Merit Principle is the selection of persons based on their fitness and ability for public employment and retention of employees based on demonstrated appropriate conduct and productive performance.

In the direction and administration of the State human resources system, the program is guided by key policies identified in Chapters 76, 78, 89 and 89C, Hawaii Revised Statutes. These policies include but are not limited to:

- Equal opportunity for all in compliance with all laws prohibiting discrimination. No person shall be discriminated against in examination, appointment, reinstatement, reemployment, promotion, transfer, demotion, removal, or any other term of employment.
- Impartial selection of the ablest person for government service, in accordance with the Merit Principle, by means of competitive evaluations which are fair, objective and practical.
- Opportunity for competent employees to be promoted within the service.
- Reasonable job security for the competent employee, including the right of appeal from personnel actions.
- Systematic classification of all positions through adequate job evaluation.
- Development and implementation of appropriate and compliant compensation provisions.
- Procedures by which qualified disabled employees may be reasonably accommodated.
- Joint decision making through the collective bargaining process, as applicable.

- Provision of systematic means to help employees maximize their productivity, effectiveness, efficiency and morale in accomplishing organizational goals.

E. Identification of Important Program Relationships

This program has close and direct relationship to the personnel programs of other public employers including the counties, the Judiciary, and the Hawaii Health Systems Corporation, particularly in achieving the intent of Chapters 76, 78, 89 and 89C (as amended by Act 253, SLH 2000). Legislative and other policy guidelines identify important relationships with other State programs (e.g., Occupational Safety and Health, Workers' Compensation, and the Office of Collective Bargaining). Line agencies also create the need for activities, programs and services to support their human resource management needs.

F. Description of Major External Trends Affecting the Program

As the nation and State continue to recover from the fiscal and economic impact of the recession, we anticipate the following human resource-related trends:

- Aging of the workforce and increased number of retirements, resulting in loss of critical institutional knowledge.
- Change in workforce and expectations of employment.
- Focus on technology improvements that will transform State government operations to best manage our resources.
- Collective bargaining negotiations will be challenging and we must continue efforts to maintain good, collaborative working relationships with the employee unions.

- Increasing costs for the workers' compensation program due to an aging workforce, yearly statutory increases in indemnity benefits, and upward adjustments to the Department of Labor and Industrial Relations' Workers' Compensation Supplemental Medical Fee Schedule because of decreasing Medicare reimbursements.

G. Discussion of Cost, Effectiveness, and Program Size Data

The human resources programs at the central agency and department level must facilitate the hiring and retention of quality employees, and the amount of resources available to them will impact their ability to deliver what is needed. The Department continues to face the challenge of how to provide an adequate level of service to the public and State agencies with staffing that has been reduced due to budget constraints.

H. Discussion of Program Revenue

Not applicable.

I. Summary of Analysis Performed

Not applicable.

J. Further Considerations

None.
