DEPARTMENT OF HEALTH
ORGANIZATION CHART**

DEPARTMENT OF HEALTH

Department Summary

Mission Statement

To administer programs designed to protect, preserve, care for, and improve the physical and mental health of the people of the State.

Department Goals

To monitor, protect and enhance the health of all people in Hawaii by providing leadership in assessment, policy development, and assurance to promote health and well-being, to preserve a clean, healthy and natural environment, and to assure basic health care for all.

FY 2027 Supplemental Operating Budget Adjustments by Major Program

FY 2027 Supplemental Operating Budget

DEPARTMENT OF HEALTH MAJOR FUNCTIONS

- Plans, directs and administers statewide programs to protect, preserve and improve the physical, mental and environmental health of Hawai'i through assessment, policy development, and assurance.
- Administers programs for the prevention, control and treatment of infectious and communicable diseases; coordinates public health, pandemic, and bioterrorism preparedness planning activities and integrating these activities with surveillance and response mechanisms.
- Administers community-based health education and other programs that provide and coordinate health intervention services and support for at-risk families, populations and communities who are most likely to experience unhealthy outcomes.
- Provides public health nursing services in the areas of communicable disease, disaster outbreaks care coordination, follow-up and monitoring for at-risk populations and nursing supervision, oversight and intervention in the public schools.
- Plans, coordinates and provides statewide mental health services which include treatment, consultative and preventive components for individuals; also plans, coordinates and implements statewide services relative to alcohol and drug abuse. Administers the Hawaii State Hospital.
- Provides services and support to individuals with developmental disabilities or intellectual disabilities and their families to attain quality of life.
- Plans, provides and promotes health services to mothers, children and youth and family planning services. Also provides basic dental treatment services to certain populations.
- Implements and maintains the statewide programs for air, water, noise, radiation and indoor air pollution control; noise, safe drinking water, solid waste and wastewater management, and programs which protect consumers from unsafe foods, drugs, cosmetics, and medical devices.
- Administers the statewide emergency medical services system.
- Administers a statewide laboratories program which conducts analysis in support of environmental health and communicable disease monitoring and control activities.
- Implements and administers the medical cannabis dispensary and patient registry systems.
- Administers state vital records, analyzes and reports statistics.
- Performs state licensing activities on healthcare facilities, agencies and organizations.

MAJOR PROGRAM AREAS

The Department of Health has programs in the following major program areas:

Environmental Protection

HTH 840 Environmental Management
HTH 849 Environmental Health Administration

Health

HTH 100 Communicable Disease and Public Health Nursing
HTH 131 Disease Outbreak Control
HTH 210 Hawai'i Health Systems Corporation – Corporate Office
HTH 211 Kahuku Hospital
HTH 212 Hawai'i Health Systems Corporation – Regions
HTH 213 Ali'i Community Care
HTH 214 Maui Health System, a KFH, LLC Hawai'i
HTH 215 Health Systems Corporation – O'ahu Region
HTH 420 Adult Mental Health – Outpatient
HTH 430 Adult Mental Health – Inpatient
HTH 440 Alcohol and Drug Abuse Division
HTH 460 Child and Adolescent Mental Health
HTH 495 Behavioral Health Administration
HTH 501 Developmental Disabilities
HTH 560 Family Health Services
HTH 590 Chronic Disease Prevention and Health Promotion
HTH 595 Health Resources Administration
HTH 596 Office of Medical Cannabis Control and Regulation
HTH 610 Environmental Health Services

HTH 710 State Laboratory Services
HTH 720 Health Care Assurance
HTH 730 Emergency Medical Services and Injury Prevention System
HTH 760 Health Status Monitoring
HTH 905 Developmental Disabilities Council
HTH 906 State Health Planning and Development Agency
HTH 907 General Administration
HTH 908 Office of Language Access

Social Services

HTH 520 Disability and Communications Access Board
HTH 904 Executive Office on Aging

Narrative for Supplemental Budget Requests

FY 2027

Program ID: HTH 840

Program Structure Level: 04 01 01

Program Title: ENVIRONMENTAL MANAGEMENT

A. Program Objective

To preserve and enhance environmental quality as it relates to human and ecological health in Hawaii.

B. Description of Request

Requests for FY 27 Operating Supplemental Executive Budget are as follows (general funds and FY 27, unless noted otherwise):

1. Adds \$50,000,000 in revolving fund ceiling for Drinking Water State Revolving Fund (DWSRF) Loan Program, HTH840/FH.
2. Adds \$60,000,000 in revolving fund ceiling for Clean Water State Revolving Fund (CWSRF) Loan Program, HTH840/FK.
3. Adds \$5,000,000 in non-recurring funds to increase the ceiling of the Deposit Beverage Container (DBC) Special Fund, HTH840/FJ.
4. Changes MOF for 1.00 Environmental Health Specialist IV from other federal funds to special funds, HTH840/FJ by: a) adding 1.00 temporary full-time equivalent (FTE) position and \$55,236 in special funds; and b) reducing 1.00 temporary FTE position and \$55,236 in other federal funds.

Request for FY 27 Supplemental Executive Budget for Capital Improvement Program project is as follows (general obligation bond funds and FY 27, unless noted otherwise):

1. Adds \$1,615,000 for the Waimano Ridge, Hale Ola Roof Replacement, O'ahu.

C. Reasons for Request

1. The Safe Drinking Water Branch receives an annual capitalization grant from the U.S. Environmental Protection Agency (EPA). In addition, the DWSRF program will receive a disaster relief grant of \$68,282,000 from the American Relief Act, 2025, P.L. 118-158, to assist with Hawaii Wildfire recovery. This new funding from EPA along with upcoming loan encumbrances for the DWSRF program will require additional appropriation ceiling to utilize all funds available for drinking water infrastructure improvements.

2. The Wastewater Branch receives an annual capitalization grant from the EPA. In addition, the CWSRF program will receive a disaster relief grant of \$22,409,000 from the American Relief Act, 2025, P.L. 118-158, to assist with Maui Wildfire recovery. This new funding from EPA along with upcoming loan encumbrances for the CWSRF program will require additional appropriation ceiling to utilize all funds available for wastewater infrastructure improvements.

3. Statute requires that the Deposit Beverage Container (DBC) program be audited every other year with FY 24 being the most recent audit. The audit identified multiple deficiencies for the program to address. The appropriation ceiling increase will enable the program to respond to the Auditor's recommendations, such as contracting for auditing services for DBC distributor payments and certified redemption center claims.

4. Converting Position No. 118596 in the Solid and Hazardous Waste Branch (SHWB) from other federal funds to special funds will ensure stable funding and continuity in the Department of Health's ability to fulfill statutory requirements under Chapter 342H, HRS. The SHWB has identified a greater need for the position as one to evaluate releases and impacts from solid waste facilities and evaluate the potential impacts from emerging contaminants and new waste streams to develop best management practices and evaluate potential recycling opportunities for these new and changing waste streams.

5. The Hale Ola Building (at 2827 Waimano Home Road) roof and gutter system need to be properly maintained and repaired to prevent leaking that occurs during heavy rains. Delayed maintenance and repair would lead to enormous expenses due to emergency repairs and remediation from water damage to the workplaces. Based on a contractor visit in 2025, the roof needs to be removed and replaced at an estimated cost of \$1,200,000, with a warranty and maintenance plan. Adding permits and design fees would bring the cost up to \$1,500,000. The estimated cost to repair the gutters is \$100,000.

D. Significant Changes to Measures of Effectiveness and Program Size

None.

Narrative for Supplemental Budget Requests

FY 2027

Program ID: HTH 849

Program Structure Level: 04 03 03

Program Title: ENVIRONMENTAL HEALTH ADMINISTRATION

A. Program Objective

To formulate environmental policy; direct operations and personnel; and provide other administrative, planning, hazard evaluation, and emergency response services.

B. Description of Request

Request for FY 27 Operating Supplemental Executive Budget is as follows (general funds and FY 27, unless noted otherwise):

1. Adds \$1,500,000 to increase the ceiling for the Environmental Response Revolving Fund (ERRF), HTH849/FD.

C. Reasons for Request

1. The current appropriation ceiling limits the Department's access to available funds to carry out its mission of protecting human health and the environment. For example, the Department of Health spent an additional \$1.5 million of general funds for equipment to monitor air quality health hazards resulting from the Kilauea East Rift Zone eruptions because adequate ceiling was not available to spend ERRF funds. In FY 26, the Hazard Evaluation and Emergency Response (HEER) Office responded to a cadmium battery emergency on Kauai, which required evacuation of neighboring houses. The HEER Office continues to work on the lithium-ion battery critical emergency remediation on Maui, which has gone on now for three weeks. HEER anticipates similar actions on Oahu and the other islands as the runaway fire and explosive nature of lithium-ion batteries are exposed. There are limited treatment and disposal options in Hawaii, which requires the HEER Office to respond in an emergency and remediation capacity.

D. Significant Changes to Measures of Effectiveness and Program Size

None.

**Narrative for Supplemental Budget Requests
FY 2027**

Program ID: HTH 100

Program Structure Level: 05 01 01 01

Program Title: COMMUNICABLE DISEASE & PUBLIC HEALTH NURSING

A. Program Objective

To reduce the incidence, severity, and disabling effects of established, communicable diseases of public health importance (tuberculosis (TB), sexually transmitted infections, Human Immunodeficiency Virus (HIV) and Hansen's disease (HD)) by adopting preventive measures and by undertaking programs of surveillance, early detection, linkage to care and effective treatment. To provide long-term care to HD patients, and to improve and maintain the health of individuals and communities by promoting healthy lifestyle choices and assuring access to health care services through public health nursing and school health-related services.

B. Description of Request

Request for FY 27 Supplemental Executive Budget for Capital Improvement Project is as follows (general obligation bond funds and FY 27 unless noted otherwise):

1. Adds \$2,520,000 for Kalaupapa Settlement, Remove Underground Storage Tanks, Molokai.

C. Reasons for Request

The Department of Health (DOH) is mandated by State and federal laws. DOH has a fiduciary duty to clean the site. There are no alternatives, deferring the project will result in monetary fines.

D. Significant Changes to Measures of Effectiveness and Program Size

Several changes were made to the Division's Measures of Effectiveness (MOEs) to better reflect programmatic progress, public health best practice indicators and statewide health impacts.

1. New Active TB Case Rate per 100,000 Residents was deleted.
2. Newly Reported HIV Cases per 100,000 was replaced with % diagnosed HIV People who are Virally Suppressed.
3. Newly Diagnosed Hansen's Disease Cases per 100,000 was deleted.

Changes made to the "Program Target Groups," include:

1. Contacts of Infectious TB Cases was changed to include those with TB as well. The new category is "Persons with Infectious TB & Identified Contacts"
2. "Contacts of Hansen's Disease Cases" was added.

No changes were made to metrics under Program Activities, however, the number of Public Health nursing (PHN) consults for DOE Students increased by 84.8% with the PHNs conducting 25,873 school health consults.

Narrative for Supplemental Budget Requests

FY 2027

Program ID: HTH 131

Program Structure Level: 05 01 01 02

Program Title: DISEASE OUTBREAK CONTROL

A. Program Objective

To reduce the incidence, severity, and disabling effects related to infectious diseases and emerging disease threats as well as potential natural or intentional hazards, through early detection by means of electronic and other disease surveillance, public health investigation, public health interventions such as distribution of medical countermeasures as indicated, appropriate public health recommendations, education, and other methods of disease prevention and risk reduction.

B. Description of Request

Request for FY 27 Operating Supplemental Executive Budget is as follows (general funds and FY 27, unless noted otherwise):

1. Adds \$30,000,000 in special funds to increase the ceiling for for the Disease Outbreak Control Division.

C. Reasons for Request

The establishment of the Universal Vaccine Purchasing Program (UVPP) allows the State to negotiate with insurance companies the cost for all vaccine purchases at a discounted price utilized by the Centers for Disease Control and Prevention vaccine contracts to help lower Hawaii health care provider's administrative costs. The UVPP has potential benefits to Hawaii's health care and public health.

D. Significant Changes to Measures of Effectiveness and Program Size

The program changed how they define "all reported outbreaks." The new definition captures a wider array of outbreaks occurring in our community to encompass not just outbreaks detected through laboratory-reporting, but also ones reported through complaint lines or institutional settings. While program size has not changed significantly, if a reduction in federal funding for future years were to occur, this could reduce program size and capacity to meet outbreak detection and response needs.

Narrative for Supplemental Budget Requests

FY 2027

Program ID: HTH 730

Program Structure Level: 05 01 03

Program Title: EMERGENCY MEDICAL SVCS & INJURY PREV SYS

A. Program Objective

To minimize death, injury, and disability due to life threatening situations by assuring the availability of high-quality emergency medical care through the development of a statewide system capable of providing coordinated emergency medical care and injury prevention services.

B. Description of Request

Request for FY 27 Operating Supplemental Executive Budget is as follows (general funds and FY 27, unless noted otherwise):

1. Adds non-recurring funds of \$8,067,168 for the Emergency Medical Services and Injury Prevention System contract increases.

C. Reasons for Request

1. Vital to meet the contractual obligations for providing and maintaining 911 ground ambulance services in Kauai and Maui counties. The ambulance is for 911 calls, and services the full population of each county. The ability to provide timely and effective emergency medical services will be severely compromised, resulting in life-or-death situations for residents and visitors in Kauai and Maui.

D. Significant Changes to Measures of Effectiveness and Program Size

None.

Narrative for Supplemental Budget Requests

FY 2027

Program ID: HTH 560

Program Structure Level: 05 01 04

Program Title: FAMILY HEALTH SERVICES

A. Program Objective

To improve the well-being of families with a focus on infants, children, and women of child-bearing age by increasing public awareness and professional education, and assuring access to a system of family centered, community-based preventive, early detection, treatment, habilitative and rehabilitative services.

B. Description of Request

Requests for FY 27 Operating Supplemental Executive Budget are as follows (general funds and FY 27, unless noted otherwise):

1. Changes Means of Financing (MOF) for 0.10 permanent full-time equivalent (FTE) Program Specialist IV position by: a) reducing 0.10 permanent FTE and \$10,096 in other federal funds; and b) adding 0.10 FTE and \$10,096 in federal funds for the Family Health Services Division (FHSD).
2. Changes MOF for 0.20 permanent FTE Information Technology Band B position from federal funds to special and other federal funds by: a) reducing 0.20 permanent FTE and \$31,108 in federal funds; and b) adding 0.10 permanent FTE and \$15,554 each in both special funds and other federal funds for FHSD.
3. Changes MOF for 0.50 permanent FTE Research Statistician IV position from federal funds to other federal funds by: a) reducing 0.50 permanent FTE and \$61,430 in federal funds; and b) adding 0.50 permanent FTE and \$61,430 in other federal funds for FHSD, Maternal Child Health Branch.
4. Adds \$206,158 in other current expenses (OCE) for the Hawaii Newborn Metabolic Screening Special Fund (NMSSF) for FHSD, Newborn Metabolic Screening Program (NMSP).
5. Changes MOF for 3.00 permanent FTE positions from special funds to federal funds by: a) reducing 3.00 permanent FTE and trading off \$266,246 from personal services to OCE in federal funds; and b) adding 3.00 permanent FTE and trading off \$266,246 from OCE to personal services in special funds for FHSD.

C. Reasons for Request

1. Ensures sufficient funding is available should the federal government repeal the Hawaii Pregnancy Risk Assessment Monitoring System grant. The position is currently filled.

2. Allows for more flexibility with work assignments and to align job duties with funding availability. Each funding source has sufficient funds to support this change. This position is currently filled.

3. Ensures alignment with job duties and funding availability. The Research Statistician performs vital record data collection including maternal death certificates, infant birth certificates and/or fetal death certificates for women who died in the State of Hawaii from any cause of death while pregnant or within a year after a pregnancy ends.

4. As part of an effort to maintain the overall solvency of the NMSSF, every three-to-five years, the NMSP successfully gains approval to increase its primary revenue source, the metabolic screen (testing) kit fee. Prior to the FY 24 approved increase, the fee was \$99. During its initial FY in effect, this fee increase (of 63.9%, compared to the previous fee) resulted in increased NMSSF revenues of \$206,158. We assess that this trend will continue into FY 25, FY 26, and so on. In FY 26, the NMSP is planning on initiating the next price-per-kit fee increase approval process, likely to take effect between FY 27 and FY 28.

5. Helps mitigate risk to the viability and sustainability of the Early Intervention Services program should federal grant funding be impacted in the future. Should federal grant funds be impacted, these Part C federal grant-funded positions are responsible for approximately \$30 million of Early Intervention and Hawaii Birth Defects services to families.

D. Significant Changes to Measures of Effectiveness and Program Size

None.

**Narrative for Supplemental Budget Requests
FY 2027**

Program ID: HTH 590

Program Structure Level: 05 01 05

Program Title: CHRONIC DISEASE PREVNTION & HEALTH PROMOTN

A. Program Objective

Promote wellness and improve the quality and lifespan for Hawaii's people through effective prevention, detection, and management of chronic diseases.

B. Description of Request

Requests for FY 27 Operating Supplemental Executive Budget are as follows:

1. Adds 2.00 permanent full-time equivalent (FTE) and \$224,568 in other federal funds for the Chronic Disease Prevention and Health Promotion Division (CDPHPD) to correct an error that was in Act 250, SLH 2025.
2. Reduces 2.00 permanent FTE and \$224,568 in other federal funds for CDPHPD to correct an error that was in Act 250, SLH 2025.
3. Transfers 8.00 temporary FTE and \$914,520 from General Administration (HTH907/AA) to CDPHPD (HTH590/KK).

C. Reasons for Request

1-2. Housekeeping request to correct an error in the legislative budget Act 250, SLH 2025.

3. Office of Health Equity (OHE) funds are at risk of being moved or spent by other offices. The civil service positions are currently undergoing reorganization, so they have not been established yet. In FY 25, we wanted to use our unspent personnel funds to support additional OHE programmatic activities. However, some of the funds were used to cover the payroll deficiency resulting from the Temporary Hazard Payments, and some were transferred to OCE to support another office's pilot project.

D. Significant Changes to Measures of Effectiveness and Program Size

None.

Program Title: OFFICE OF MEDICAL CANNABIS CNTRL & REGULATN

A. Program Objective

To improve and maintain the health of individuals in the Hawaii State Medical Cannabis program by ensuring safe access to medical cannabis for qualified patients in the State of Hawaii. To provide and use data to identify areas of need and promote the use of best practices to supplement the needs of medical cannabis patients.

B. Description of Request

Request for FY 27 Operating Supplemental Executive Budget is as follows (general funds and FY 27, unless noted otherwise):

1. Adds \$2,100,000 in special funds for the Office of Medical Cannabis Control and Regulation.

C. Reasons for Request

This laboratory will provide independent, standardized testing to verify product safety, including potency and contaminant analysis, while supporting consistent regulatory compliance across licensed operators. By serving as a central resource, the lab will enhance public health protections, strengthen enforcement capabilities, and create reliable scientific data to inform policy and industry standards.

D. Significant Changes to Measures of Effectiveness and Program Size

None.

Narrative for Supplemental Budget Requests

FY 2027

Program ID: HTH 211

Program Structure Level: 05 02 02

Program Title: KAHUKU HOSPITAL

A. Program Objective

To sustain and enhance both the levels of service and the quality of care delivered to the North Shore communities on the island of Oahu. Kahuku Medical Center (KMC) provides medical care in the most cost-effective manner and operates a critical access hospital providing acute hospital services, skilled nursing services, a 24-hour emergency department, and supportive diagnostic/ancillary services.

B. Description of Request

1. Adds \$1,416,250 (non-recurring) for general fund subsidy increase.
2. Adds \$612,000 in general obligation (G.O.) bond funds for Kahuku Medical Center, Mammography Unit, Oahu.
3. Lapses lump sum capital improvement project (CIP) appropriations authorized under Act 164, SLH 2023, as amended by Act 230, SLH 2024, totaling \$650,000 in general funds and re-appropriates \$650,000 in general obligation bond funds for Kahuku Medical Center Projects, Oahu.

C. Reasons for Request

1. KMC is currently facing significant financial constraints, with its days cash on hand at 25 as of August 31, 2025. This figure indicates that KMC would be able to maintain operations for only 25 days without additional revenue, which is markedly lower than the national average of 196.8 days and the more than 200 days reported by several hospitals in Hawaii. Primary factors contributing to this fiscal challenge include increasing labor and supply costs, ongoing reimbursement difficulties, and the repercussions of last year's nationwide Change Healthcare cyber incident. The latter led to a rise in claim denials due to the shift from electronic to manual claims submission and significantly reduced our days' cash on hand.

Given the current financial position, with only 25 days of cash on hand and the potential risk of service interruptions in the event of a financial crisis, KMC is requesting reserves to support HEPA physician services in the Emergency Room, RIA radiology services for image interpretation, and Diagnostic Laboratory Services. Serving a population of roughly 30,000 residents across the North Shore and Koolauloa regions - a number expected to grow with ongoing expansion projects by Brigham Young University-Hawaii, Turtle Bay, and new

housing developments in Kahuku - Kahuku Medical Center faces increasing pressure as the only hospital within a 30-mile radius. It functions as both the community's critical emergency safety net and its primary source of essential healthcare services. To support the long-term financial sustainability of emergency care, we have submitted a grant application to a private donor, as well as to the State CIP, seeking funding for an Emergency Department expansion. This project is vital to meeting the needs of our growing community, as rising demand - averaging 600 to 700 patients per month - has already required us to convert our only waiting room into a patient care room.

2. Renovate an existing space to create a new mammography unit. The work includes demolition, carpentry, drywall, electrical, and a new mammography machine.

3. Department of Budget and Finance adjustment to free up general funds and convert to G.O. bond funds.

D. Significant Changes to Measures of Effectiveness and Program Size

None.

Narrative for Supplemental Budget Requests

FY 2027

Program ID: HTH 212

Program Structure Level: 05 02 03

Program Title: HAWAII HEALTH SYSTEMS CORPORATION - REGIONS

A. Program Objective

To maintain and enhance the quality of care for the communities we serve in the most cost-effective fashion, thus providing better health for all people in Hawaii, including those served by rural facilities. The facilities of the Hawaii Health Systems Corporation (HHSC) include: Hilo Benioff Medical Center (HBMC), Honokaa Hospital, and Skilled Nursing and Kau Hospital (East Hawaii Region); Kona Community Hospital and Kohala (West Hawaii Region); and Kauai Veterans Memorial Hospital and Samuel Mahelona Memorial Hospital (Kauai Region).

B. Description of Request

1. Adds \$3,000,000 in G.O. bond funds for Hilo Benioff Medical Center, Campus Paving, Lighting, and Parking, Hawaii.
2. Adds \$50,000,000 in G.O. bond funds for West Hawaii Medical Office Building, Hawaii.
3. Adds \$2,000,000 in G.O. bond funds for Hilo Benioff Medical Center, Acute Facility Emergency Power, Generator Replacement, Hawaii.
4. Adds \$3,552,000 in G.O. bond funds for Kohala Hospital, CT Scan and Expansion, Hawaii.
5. Adds \$5,000,000 in G.O. bond funds for Hilo Benioff Medical Center, Plumbing Repairs and Renovations in the Acute Facility, Hawaii.
6. Adds \$1,500,000 in G.O. bond funds for Hilo Benioff Medical Center, Emergency Room HVAC, Hawaii.

C. Reasons for Request

1. The project entails the construction and improvement of gravel lots at the HBMC campus. Scope includes installation of asphalt pavement, storm-water drywells, parking lot light poles, and associated infrastructure. The project will also reconfigure parking stall layouts and orientations, integrating them with adjacent lots and access aisles to efficiently maximize the total number of available parking stalls. Additional work includes base course installation, excavation, curbs, wheel stops, striping, sewer manholes, site utilities, retaining walls, landscaping, chain link fencing, electrical trenching and back-fill, and the installation of electric vehicle charging stations.

2. This is the first step in a multi-phase project to build an Medical Office Building in Kona, Hawaii. Project will be operated by HHSC West Hawaii Region. The first phase will consist of design selection, vendor engagement, scope clinical service needs (with vendor) to ensure the services located in facility will have clinical configuration and can be supported in the design process. Services will include primary care and multi-specialty physician offices, walk-in/urgent care type settings, in addition to support services for a multi-provider location/building. Commercial leased space is also planned for the design as a revenue-generating source that will support financial stability. The scope of the capital improvement project request encompasses the planning and design for the West Hawaii Medical Office Building.

3. The project involves upgrading and replacing the existing generator with a new modernized control system. This includes enhancements to the electrical infrastructure such as installing supplementary piping, feeders, connections, a new panel, and an automatic transfer switch. Concrete patching, painting, and other incidental work will also be completed to ensure proper operation of the generator. The project will also expand the capacity of the emergency and normal power supply of the generator to bring the facility up to the necessary power requirements, including increased capacity to support the operating room for additional equipment needed as part of the growing community. It is important to note that the original electrical space and infrastructure were designed in the 1980s and were not specified or sized to accommodate these additional power requirements. Therefore, this project includes modifications to address space constraints and upgrade the infrastructure to support the increased load.

4. The scope of this project is to move forward from initial CT/Imaging infrastructure build (FY 24 & FY 25), finalize construction space demands, meet electrical and heating, ventilation, and air conditioning (HVAC) building code/building needs, and any other and space demands, finally the project scope will purchase CT machine/CAT scan.

5. The scope of work focuses on comprehensive plumbing repairs and renovations within the Acute Facility as well as the replacement of the Operating Room HVAC system. Scope includes but is not limited to, the replacement of aging and deteriorated plumbing lines affected by earth movement, chemical exposure, and corrosion. The work involves saw cutting and removal of existing concrete and flooring, excavation, disposal of materials, installation of new piping and supports, concrete patching, and all related base work. Critical upgrades to medical gas and vacuum systems, fire suppression, and chiller lines will also be completed. Testing, adjusting, balancing, and commissioning of all plumbing

Narrative for Supplemental Budget Requests

FY 2027

Program ID: HTH 212

Program Structure Level: 05 02 03

Program Title: HAWAII HEALTH SYSTEMS CORPORATION - REGIONS

systems will ensure optimal performance and compliance with health and safety standards. The HVAC scope includes removal and replacement of the existing rooftop air handling unit that serves the current operating room. The work includes mechanical ventilation upgrades, duct work, terminal units, insulation, and controls will be renovated throughout the operating rooms, sterile cores, staff areas, and adjacent corridors. Additional HVAC work adjacent, above, and below the operating room may also be needed as required through discovery. Temporary units will be deployed as required by each phase to continue surgical services. TAB surveys will be conducted at the end of each phase to verify system performance. Coordination with related trades will ensure seamless integration of plumbing and HVAC systems throughout the renovation.

6. HBMC's current Emergency Room (ER) was renovated and expanded in 2010 to better support the growing community. At that time, the least disruptive option was to utilize the existing air handler and duct system. Over ten years later, the system is having difficulty maintaining its initial performance. The current air handler is designed to supply 13,895 cubic feet per minute. Recent field inspections with a flow test hood revealed that the ER is only getting a fraction of the designed supply air, leading to increasingly warm conditions. HBMC is seeking to assess, redesign and construct an updated HVAC system to restore climate control to the ER. This will involve TAB and design services to identify duct elements, control devices and air handler deficiencies. It will also require design specifications to install new HVAC equipment to restore full function to the ER. This project may also require redesign and HVAC repairs/replacement to areas surrounding the ER, dependent upon project discovery and HVAC duct evaluation.

D. Significant Changes to Measures of Effectiveness and Program Size

None.

Narrative for Supplemental Budget Requests

FY 2027

Program ID: HTH 214

Program Structure Level: 05 02 06

Program Title: MAUI HEALTH SYSTEM, A KFH LLC

A. Program Objective

To maintain and enhance the quality of care for the communities we serve in the most cost-effective fashion, thus providing better health for all of the people served by the Maui Health System, which consists of the following facilities: Maui Memorial Medical Center; Kula Hospital and Clinic; and Lanai Community Hospital.

B. Description of Request

Lapses lump sum capital improvement project appropriations authorized under Act 164, SLH 2023, as amended by Act 230, SLH 2024, totaling \$650,000 in general funds and re-appropriates \$650,000 in general obligation (G.O.) bond funds for Kahuku Medical Center Projects, Oahu.

C. Reasons for Request

Department of Budget and Finance adjustment to free up general funds and convert to G.O. bond funds.

D. Significant Changes to Measures of Effectiveness and Program Size

None.

Narrative for Supplemental Budget Requests

FY 2027

Program ID: HTH 430

Program Structure Level: 05 03 02

Program Title: ADULT MENTAL HEALTH - INPATIENT

A. Program Objective

To reduce the severity of disability caused by severe mental illness, with the ultimate goal of community reintegration, through provision of inpatient and outpatient care, including diagnosis, treatment, and rehabilitation, for court-ordered individuals with special mental health issues and substance abuse problems in the State.

B. Description of Request

Requests for FY 27 Operating Supplemental Executive Budget are as follows (general funds and FY 27, unless noted otherwise):

1. Adds \$2,500,000 for FY 27 in non-recurring funds to cover overtime and other payroll costs shortfall at Hawaii State Hospital (HSH).
2. Adds \$5,500,000 in non-recurring funds for FY 27 to cover contracts for psychiatric beds for HSH.

C. Reasons for Request

1. HSH provides inpatient psychiatric services for court-ordered individuals 24 hours a day, 7 days a week. The Average Daily Census (ADC) increased from 337.6 in FY 24 to 381.9 in May 2025, representing a 13.12% increase. This growth has required HSH to spend more on overtime to ensure adequate medical care for the patients. HSH paid \$17 million in overtime in FY 24 and \$19 million in FY 25, reflecting an 11.76% increase. After utilizing resources from vacancy savings to cover overtime costs, HSH still has a \$2.2 million deficit in its payroll budget for FY 25. The hospital estimates a \$2.5 million deficit in the payroll budget for FY 27. HSH is requesting \$2,500,000 to cover overtime costs at HSH. HSH is requesting additional funds for overtime to cover the estimated deficits.

2. HSH provides inpatient psychiatric services for court-ordered individuals 24/7. The ADC at HSH has steadily increased: 195.5 in FY 21; 225.6 in FY 22; 274.8 in FY 23; and 337.6 in FY 24. As of May 2025, the ADC has further risen to 381.9. This growing patient population has exceeded the hospital's capacity and available staffing resources. HSH estimates the need for 29 to 40 additional beds to meet patient care demands. The psychiatric beds contract has a budget of \$5,500,000 in FY 26. This is a non-recurring budget. HSH is requesting \$5,500,000 to continue funding the contracts in FY 27.

D. Significant Changes to Measures of Effectiveness and Program Size

Due to Act 26, SLH 2020, there has been an increase in admissions for mental health services at HSH. HSH predicts that the demand for mental health services will continue to rise and as a result, the hospital will also continue to grow which will require additional human resources and funding.

Narrative for Supplemental Budget Requests

FY 2027

Program ID: HTH 460

Program Structure Level: 05 03 04

Program Title: CHILD & ADOLESCENT MENTAL HEALTH

A. Program Objective

To provide timely and effective mental health assessment and treatment services to children and youth with emotional and behavioral challenges, and their families.

B. Description of Request

Requests for FY 27 Operating Supplemental Executive Budget are as follows (general funds and FY 27, unless noted otherwise):

1. Changes Means of Financing (MOF) for 2.00 temporary full-time equivalent (FTE) positions from interdepartmental transfers to special funds by a) adding 2.00 temporary FTE positions and trading off \$223,814 in special funds from other current expenses (OCE) to payroll between programs; b) adding \$189,457 in interdepartmental transfers; and c) reducing 2.00 temporary FTE positions and \$189,457 in interdepartmental transfers for payroll.

2. Variances 1.00 temporary FTE Psychiatrist position to 1.00 temporary Clinical Psychologist; and trades off \$166,572 in payroll to OCE.

C. Reasons for Request

1. The Child and Adolescent Mental Health Division (CAMHD) has two temporary positions that are currently funded by an interdepartmental transfer from the Department of Human Services (DHS), Child Welfare Services. These funds are reimbursement for youth that are Title IV-E eligible with DHS and are based on Room and Board of Title IV-E youth that are placed in CAMHD Therapeutic Foster Homes (TFH) and training that is provided to the TFH parents providing the care to those youth. Over the years, the number of Title IV-E youth placed in the CAMHD TFH homes has decreased, and the funding has been drastically reduced, not providing enough funding for these two positions. However, these two positions are still vital to the CAMHD.

2. The Maui wildfires highlighted the need for improved clinical infrastructure to ensure that there are enough services provided across the system, and that they are evidence-based, data driven and accountable. This requires additional clinical positions to meet behavioral health needs and to ensure quality.

The Clinical Services Office has been funding a position through Western Interstate Commission for Higher Education to serve as a clinical lead. This position would be responsible for oversight of CAMHD's crisis response, including collecting data, providing training, and addressing system barriers and will work with our contracted providers and emergency departments across the State to ensure that the system adequately supports children and adolescents who are experiencing a mental health crisis. This position is also needed to assist with the implementation of the expanded crisis services pilot project, including assessing pilot data and, if warranted, expanding the service across the State. Improving the crisis response system requires the sustainability of a permanent position to acquire a viable candidate.

D. Significant Changes to Measures of Effectiveness and Program Size

None.

Narrative for Supplemental Budget Requests

FY 2027

Program ID: HTH 501

Program Structure Level: 05 03 05

Program Title: DEVELOPMENTAL DISABILITIES

A. Program Objective

To support individuals with intellectual disabilities/developmental disabilities, and/or neurotrauma to live a healthy, meaningful, productive, and safe life in the community through the development, administration, provision, and monitoring of a comprehensive system of appropriate support services.

B. Description of Request

Request for FY 27 Supplemental Executive Budget for Capital Improvement Program project is as follows (general obligation bond funds and FY 27, unless noted otherwise):

1. Adds \$1,000,000 for the Waimano Hale Complex, Health and Safety Improvements, O'ahu.

C. Reasons for Request

Design and construction for necessary improvements will provide for health and safety, accessibility, and other code requirements.

D. Significant Changes to Measures of Effectiveness and Program Size

None.

**Narrative for Supplemental Budget Requests
FY 2027**

Program ID: HTH 710

Program Structure Level: 05 04 02

Program Title: STATE LABORATORY SERVICES

A. Program Objective

To enhance the effectiveness of other health programs by providing specialized laboratory services to health care facilities and departmental programs and to various official agencies.

B. Description of Request

Request for FY 27 Supplemental Executive Budget for Capital Improvement Program project is as follows (general obligation bond funds and FY 27, unless noted otherwise):

1. Adds \$9,400,000 for the Waimano Ridge, Kamauleule Building Renovation, Phase 1, O'ahu.

C. Reasons for Request

Design and construction for a phased renovation of the Kamauleule Building at 2725 Waimano Home Road, Pearl City, Hawaii, to provide for the future Biosecurity Level 3 and forensics laboratories where infectious disease work for an immediate response to a public health crisis will occur.

D. Significant Changes to Measures of Effectiveness and Program Size

None.

**Narrative for Supplemental Budget Requests
FY 2027**

Program ID: HTH 760

Program Structure Level: 05 05 02

Program Title: HEALTH STATUS MONITORING

A. Program Objective

To collect, process, analyze, and disseminate relevant, population-based data in a timely fashion in order to assess the health status of Hawaii's multi-ethnic population and to fulfill health statistical/legal requirements, including the stewardship of Hawaii's Vital Records pertaining to Birth, Marriage, and Death certificates.

B. Description of Request

Request for FY 27 Operating Supplemental Executive Budget is as follows (general funds and FY 27, unless noted otherwise):

1. Adds \$469,682 in special fund ceiling for the Vital Statistics Improvement Special Fund.

C. Reasons for Request

Based on Act 148, SLH 2025, the Legislature approved the reallocation of funding back to the Office of Health Status Monitoring (OHSM). This ceiling increase will authorize OHSM to expend the funds necessary to support the modernization and automation of the Vital Records system.

D. Significant Changes to Measures of Effectiveness and Program Size

None.

Narrative for Supplemental Budget Requests

FY 2027

Program ID: HTH 907

Program Structure Level: 05 05 04

Program Title: GENERAL ADMINISTRATION

A. Program Objective

To enhance program effectiveness and efficiency of overall departmental functions by planning, formulating policies, directing operations and personnel, and by providing other administrative support.

B. Description of Request

Request for FY 27 Operating Supplemental Executive Budget is as follows (general funds and FY 27, unless noted otherwise):

1. Transfers out 8.00 temporary full-time equivalent (FTE) and \$914,520 from General Administration (HTH907/AA) to Chronic Disease Prevention and Health Promotion Division (HTH590/KK), by reducing 8.00 temporary FTE and \$914,520 for General Administration, Director's Office.

Request for FY 27 Supplemental Executive Budget for Capital Improvement Program (CIP) projects are as follows (general obligation (G.O.) bond funds and FY 27, unless noted otherwise):

1. Adds \$1,000,000 for Department of Health (DOH), Health and Safety Improvements for Health Centers, O'ahu.

2. Lapses lump sum CIP appropriations authorized under Act 164, SLH 2023, as amended by Act 230, SLH 2024, totaling to \$2,000,000 in general funds and re-appropriates \$2,000,000 in G.O. bond funds for the DOH Improvements, Statewide.

C. Reasons for Request

Reason for operating request is as follows:

The Office of Health Equity (OHE) funds are at risk of being moved or spent by other offices. The civil service positions are currently undergoing reorganization, so they have not been established yet. In FY 25, we wanted to use our unspent personnel funds to support additional OHE programmatic activities. However, some of the funds were used to cover the payroll deficiency resulting from the Temporary Hazard Payments, and some were transferred to other current expenses to support another office's pilot project.

Reason for CIP request is as follows:

Reroof of four Health Center buildings (Diamond Head, Lanakila, Leeward and Windward) and other improvements, 30 years. Roofs have been assessed, and it has been determined that a new roof is necessary. Water is trapped under the existing roofing materials. Standing water accelerates the deterioration of the structural roof deck.

D. Significant Changes to Measures of Effectiveness and Program Size

None.
